# **PAPER JOGGERS**

Paper Joggers have become a "necessary" convenience for printers and other paper converters requiring perfectly aligned sheets for assurance of quality output. You can count on Brackett Joggers to deliver straight stacks of materials . . . from tissue and carbon-attached sets to printed sheets and covers.

## **STANDARD INDUSTRIAL JOGGERS**

Brackett's floor standing, production jogger boasts a stable, cast iron bed plate attached to a drive motor through which the vibrating action is transformed to the work table. With a maximum paper stack of six inches, the table can be adjusted to vary jogging action as well as tilted to the angle desired.

Standard model paper joggers are available in two frame and board sizes: 15 x 15 inches and 17 x 22 inches. With a sturdy base of tubular steel, height telescopes from 25½ inches to 40 inches. Optional locking casters for easy movement.

## **MID SIZE INDUSTRIAL JOGGERS**

Mid size industrial jogger features tough, durable construction to handle demands of heavier loads. Height adjusts from 32 to 44½ inches. Quick tilt adjustment. Choose from a variety of table sizes and styles to fit your needs, up to 30 x 30 inches.

## **LARGE INDUSTRIAL JOGGERS**

Brackett heavy duty, industrial joggers are equipped with cast-iron bed castings for long life under the most severe working conditions. Table sizes up to 38 x 46 inches. Height adjusts from 35 to 46 inches.

For sizes, refer to Selector Chart.

## **Why Brackett Joggers make friends fast**

- Ruggedly built for "ever after" performance
- Quick and easy operator adjustments
- Pre-assembled jogger-in-the-box readiness
- Wide choice of job rated models
- Thousands working daily in shops worldwide
- Quiet, preferred "single plane" "vibrating" action

# JOGGER SELECTOR

You'll want to choose a size which can handle the largest paper dimensions generally jogged. One caution about size. You should not attempt to jog a product which is less than one-third the area of the jogger work table. And too, when there's a need for simultaneous jogging at more than one location, you'll need a jogger for each area. Specify table size and options when ordering.

TABLE SIZE IN INCHES	ADJUSTABLE JOG ACTION	ADJUSTABLE TILT ANGLE	LOCKING CASTERS	ADJUSTABLE HEIGHT MANUAL	ADJUSTABLE HEIGHT HAND CRANK	ADJUSTABLE SIZE TABLE	220V 60HZ 1PH See Note 1	220V 50HZ 1PH See Note 1	110V 60HZ 1PH
