

BRACKETT Inc.

World's leading manufacturer of automated padding machines.

Presents:

The X-30 System

X-30 System

Automatically Pads & Tapes In One Operation

Put Brackett's innovative engineering concepts to work improving your future with profits. The X-30 modules can be used individually, or totally integrated, to automatically jog, pad, cool, and / or tape the work. It can handle standard, extra long, extra thick or extra tall work.

All of this is done in **one** operation on **one** machine !!

X-30 OVERALL FEATURES

I. Modular Design

Benefits

- A. Choice of options to fit customer's needs or budget.
- B. Ability to add modules at a later date.
- C. Add new Features as they become available.

II. Inline Padding and Taping Units

Benefits

- A. Eliminate two-step procedure (glue by hand then run through taping machine).
- B. Reduce labor costs.
- C. Free up floor space.
- D. Reduce work in process time.
- E. Make more money.
- F. Make tablets like BIG corporations have for years at half the machine price.

III. In feed Module

Purpose: Jog sheets into place and transfer into belted section (padding).

FEATURES

BENEFITS

- | | |
|-------------------------------------|---|
| 1. Three sizes to choose from | <ul style="list-style-type: none">• Save on machine cost• No need to pay for more than you need. |
| 2. Automatic Jogging | <ul style="list-style-type: none">• Help eliminate operator error.• Ease of feeding.• Speed up production. |
| 3. Main Control Panel On/Off Switch | <ul style="list-style-type: none">• Turns off power to machine drive without turning off power to Glue Pot timers.• Easily accessible to machine feeder operator. |
| 4. Speed Control | <ul style="list-style-type: none">• Ability to run faster on jobs that are easier to feed.• Adapts to different products and sizes. |
| 5. Jog Button | <ul style="list-style-type: none">• Easy set up.• Ability to position machine by "Inching" drive motor. |

IV. Padding Section

Purpose: Apply hot melt adhesive to spine of pad, tablet etc.

FEATURES

1. Automatic head adjust for pad thickness.
2. Pad Cooler
3. Electronic Digital Temperature control
Adjusts 100-500° F
4. Seven day automatic Glue Pot timer

BENEFITS

- No guesswork when setting machine up.
- No need for adjustment when changing jobs.
- Faster production.
- Better looking product.
- Can use a wider range of glues.
- Electronics are very reliable.
- Because it is digital you can **see the actual** temperature.
- Glue is melted and ready when you arrive in the morning.
- Ability to skip weekends and holidays.

V. On demand Stripping Section

Purpose: Apply tape to spine of pad, tablet, etc.

FEATURES

1. Automatic spacing of different size strips
2. New style tape formers
3. Tape knife
4. Seven day auto timer
5. Digital Glue Pot Temperature
6. Pre-Melt Pot

BENEFITS

- No adjustments needed when changing to different length tablets.
- No moving parts.
- Easy clean-up.
- Low maintenance.
- Employee Safety
- Glue is melted and ready when you arrive in the morning.
- Ability to skip weekends and holidays.
- Electronics are very reliable.
- Because it is digital you can **see the actual** temperature.
- Instant Hot Melt available for stripping pot.
- No down time waiting for glue to melt.
- Glue temperature stays constant for smooth even application.
